COMMON COUNCIL.—Wednesday evening, June 30, 1869, the Common Council of the City of Portland met at the usual hour, his Honor Mayor Boyd presiding.

Present Councilmen Brock, Cree, Hallock, Hopkins, Lewis, Norris, Porter and Ripley.

Journal of last meeting partly read and approved.

Councilman Besser appeared and took his seat.

REPORTS OF STANDING COMMITTEES.

Committee on Ways and Means reported the sum of $15,000 loaned in pursuance of ordinance as follows, $1,000 to Samuel Sykes for 2 years $3,000 to Arthur Fabie for 3 years; $11,000 to A P. Dennison for 3 years, all the notes being secured by mortgage and bearing interest. Report adopted.

Committee on Streets and Public Property reported in favor of granting the petition of Patrick Norton for leave to construct a sewer on Taylor street. Report adopted.

REPORT OF OFFICERS.

The report of the Recorder and Marshal for the month of June were read and placed on file.

Street Commissioner reported a lamp post broken down on Market street and recommended that a new one be erected when the sidewalk is completed. Recommendation adopted.

The City Attorney asked to be remunerated for services in codifying ordinances. Matter referred to the committee on Judiciary.

CLAIMS AGAINST THE CITY.

O. Risley, $121 65; H. M. Hudson, $7 60; J. Sloan, $3; J. S. Risley, $1 70; Portland Gas Light Co., $6 50; ditto, $341; J. H. Lappeus, board of city prisoners, $109. Paid.

Bill of City Surveyor and assistants for services during the month of June, $308 50, referred to Committee on Streets and Public Property.

MISCELLANEOUS.

Petition of Porter and Weigand for use of part of First street for building purposes, read and prayer thereof granted.

The following resolution was unanimously adopted:

Resolved, That the thanks of the Common Council be and the same is hereby tendered to Hon. H. Boyd, Mayor, for the impartial and courteous manner in which he has presided over its deliberations.

His Honor responded in a brief speech, returning his thanks for the uniform courtesy shown by the members of the Council during his term of office.

On motion the Council adjourned.

REGATTA ON THE 5TH.—At a meeting held last evening in Bushnell's rooms, for the purpose of making arrangements for the regatta, T. B. Trevitt was elected Chairman and J. F. Bowman Secretary.

A committee consisting of Messrs. Hallock, Upton and [illegible] were chosen for the purpose of visiting the City Committee and Mayor and to draw up rules and regulations to govern the boats entering for the race; to choose [illegible] and designate the time of starting and distance to be run. It was afterward determined that the start should be made from a buoy opposite the foot of Morrison street; to sail round a buoy east of Boeher's house, below the city, thence round a buoy near the foot of Ross' Island, and thence to the place of starting. The meeting adjourned to meet again again Friday evening.

There are to be four prizes, the first to be given to the first boat in the race; the 2d and 3d to the 2d and 3d boats, and the 4th to the last boat.

[illegible].—After a long season of *halo* sprinkling wagon, and Argus dust, a bran new sprinkler was set upon our streets yesterday. After the Street Commissioner broke up the tank camp at the foot of Oak street, the sprinkler for a while took water from one of the Water Co's hydrants, but either the water tariff was too high on the supply was [illegible], and the street literally dried up. Mr. John Wilson, the proprietor of the sprinkler, and them went to work and [illegible] a tank on the wharf near the foot of Washington st., and planted an engine to drive a force pump, filling the tank with water from the river. He has expended about $1,700 in this enterprise, and deserves a liberal patronage at the hands of our citizens.

THE TRAIN.—We presume there is little danger that anybody will forget the lecture to-night by George Francis Train, at Oro Fino Theater. The programme of subjects is a rather [illegible] matter, in the elaboration of which, Mr. Train will, unquestionably, "come out strong." That California is not in the Union may be surprising to most people, but it is interested that he will treat us as *our* and will suggest the propriety of wheeling us in. It will be interesting to learn the whys and hows. The future of our city and State will be in part the theme of the lecture. Not a few will fail to go and hear Mr. Train, once or twice, at least.

MAILS FOR OREGON.—The following is the copy of a [illegible] received last evening from George Francis Train:

[illegible] June 30; 7 P. M., 1869.

Mail Orders—I caught five large salmon—saw ten thousand—no death—no inundation—no locusts—no [illegible] no earthquakes! With cheap food, fruits and grains, the grand agricultural, lumber, and mining State with its wealth of great fisheries and wheat fields must no longer be a northern county of California. Three cheers for Oregon and its magnificent future!

GEO. FRANCIS TRAIN.

"HAND STILL PLAYING."—Last night just as the Common Council was closing up its labors and some of the members were winding up their career as Councilmen, the band in the cellar of the commenced playing with all their might, a military company, with drums beating and fifes blowing, paraded on the adjoining street, thus completely drowning the deliberations of the Council, when Mayor Boyd effectively remarked in a loud and sonorous voice that lungthrious tone of voice: "Gentlemen of the Council, the band is still playing" and the Council adjourned.

THE WEARY TRAIN.—[illegible] to have passed its climax here. Yesterday was comparatively balmy during the [illegible] part of the day, with a decided cooling off [illegible]. The people of this valley have little to complain of, after all, as compared with our friends on the east side of the mountains, for while the high est point reached by the mercury within the last ten days, was 94 degrees, it has reached 100 degrees at Walla Walla, 108 at Boise City and 104 at Lewiston. Talk about Webfoot has got it by a large majority in every way.

NEWSPAPER CHANGES.—The *Herald* newspaper of this city has again changed hands and will undergo a rather [illegible] reconstruction in the editorial and business departments. Messrs. Patterson & Co. are the purchasers. Mr. Eugene Semple, who is one of the proprietors, is to have the chief editorial chair. Mr. Patterson, the [illegible] man, is to have control of the business department. Mr. M. H. Abbott, late of the Albany *Democrat*, is spoken of as the local editor. The transfer to the new hands will take place to-day.

THE NEW CITY OFFICERS.—To-day the lately elected city officers will assume their several positions of trust. Phillip Saunders, Marshal, gives bonds in the sum of $5,000, with J. J. Hoffman, M. F. Mulkey, H. L. Hoyt and J. W. Cook, as sureties. R. D. Blackinston, Treasurer, bonds $4,000, with M. Crawford, R. Williams, T. J. Carter and A. P. Ankeny as sureties. Jacob Shartle, Street Commissioner, bonds $1,500, with F. Harbaugh and J. C. Carson as sureties.

HOW TO OBTAIN CREDIT.—The *Commercial* complains that the Salem *Farmer* copies from, and gives credit to, this paper for too much matter to be satisfactory to the paid complainant. Did the *Commercial* ever reflect about a good way—and the only way—to obtain credit, is to deserve it? The newspaper which publishes much [illegible] of news, of interest, of value, is very likely to be [illegible] from, and duly credited. Otherwise, quite the reverse.

CIRCUIT COURT—UPTON, JUDGE.—The following were the [illegible] of yesterday:

State of Oregon vs. George Forrest: verdict of jury, guilty of an assault;" sentence set for Friday morning.

State of Oregon vs. Geo. Oakes; testimony heard, the case will be summed up by counsel this morning.

Anna L. Moyes vs. James Moyes; divorce granted to [illegible].

FIELD OF USEFULNESS ENLARGED.—We are informed that Dr. O. P. S. Plummer who has for some months been acting as Superintendent of the Western Union Telegraph line for the section between Portland and Yreka, has been placed in charge of the entire line from this city to Marysville, California. If this be good luck to the Doctor, we tender congratulations.

ROAD OPENED.—Uncle John Stephenson informs us that the mountain road in his district will be fully graded and open for travel on the 4th of July. We hear this piece of road spoken of as one of the finest in the country. Uncle John has the reputation of doing more work for the same money than any man in the country.

CONVICTION OF HAYDEN.—The jury in the case of the State of Oregon vs. Hayden, indicted for murder, at a late hour Tuesday evening returned a verdict of "murder in the second degree." No time has yet been set for pronouncing sentence. The punishment as prescribed by law, is imprisonment for life.

FROM THE INTERIOR.—There were in the city yesterday an unusual number of teams from up the valley, among which we saw nearly a dozen from Silverton and vicinity, in Marion county, all loading with goods for the merchants of that place. Silverton, by the [illegible], must be in a flourishing condition.

THEATRE TO-NIGHT.—To-day Mr. S. D. Smith to-day [illegible] the management of the Western Hotel.

FROM PERRY CREEK MINES.—The Walla Walla *Union* of last Saturday says: "Wm Stephens is just down from Perry Creek and mines in that locality. The particulars he had not learned when he left Colville, but a party of the citizens, headed by Mr Ogden's son, who are accustomed to mining rumors and not easily carried away, have confidence enough in them to start on a prospecting tour. They were to leave Colville on Tuesday last."

CIRCUS TO-NIGHT.—The Great Eastern and Royal European Circus will open to-night at the corner of Fourth and Pine streets. The performance is to be under the direction of Mr. H. C. Lee the pioneer Circus manager of the coast. The performers are reputed to be among the first of their profession. The bills promise us something out of the usual line, for which at least the public may be thankful.

GOING, GOING, GONE.—The Walla Walla *Union* of the 26th says: "Several parties of Eastern families, with fine bands of young cattle, passed through town on Wednesday last. They are from Polk county, Oregon, and their destination is the Bitter Root Valley, in Montana."

RESIGNED.—Lt. J. A. Waymire, of the U. S. Cavalry, has tendered his resignation as a Lieutenant in the army. He retires because of his anxiety to secure a permanent home for himself and family. He intends to establish himself at Salem in the practice of law.

GONE UP THE COLUMBIA RIVER.—George Francis Train went up the Columbia river, yesterday, for the purpose of seeing the country and to deliver a lecture at Dalles, last evening. Messrs. Ainsworth and Reed of the O. S. N. Co. also went up.

SALE OF REAL ESTATE.—At a guardian's sale, yesterday, Mr. A. B. Richardson, auctioneer sold lots 5 and 6, in block 59, corner of Yamhill and Fourth streets, for $3,800 to Mr. Henry Failing.

FREIGHT FOR SAN FRANCISCO.—The steamship *Orr flamme*, which sailed Tuesday evening, took among an aggregate of four hundred and twenty five tons of freight—mostly all wool and produce.

THE MERCIER CONCERT.—The Concert last evening, by Miss Octavia Mercier and sisters, was attended by a fair audience. The singing of the young ladies was received with usual favor.

A GOOD RUN OF BUSINESS.—On Tuesday there were five or six cases tried in the Recorder's court, and yesterday, six. The Recorder and the police force go out with a flourish.

SICKNESS.—Within the last few days, quite a number of cases of summer sickness have occurred in this city, with one or two fatal results.

BONDS APPROVED.—The bonds of the several city officers (the new *regime*) were yesterday approved by the Mayor.

DRILL.—The Washington Guard was out for drill last evening.

A Kentucky paper thinks that the word croquet is too Frenchy, and proposes that the game which it designates be hereafter called "Presbyterian billiards."

THE DAY fixed to commence work on the East Side Railroad is July 1st. By that time the Company will have sufficient Railroad Iron on the way or in Portland to complete twenty miles of road. Workmen without employment should be patient for the Company will give employment to a thousand men, at good wages, and of course KOHN & FISHEL will continue to sell the very best clothing in that time at remarkably low figures.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

Washington, D. C.

CHARTERED BY SPECIAL ACT OF CONGRESS!

APPROVED JULY 25, 1868.

CASH CAPITAL,

$1,000,000.

OFFICERS:

CLARENCE H. CLARK, Philadelphia, President.
JAY COOKE, Chairman Finance & Executive Committee.
HENRY D. COOKE, Washington, Vice President.
EMERSON W. PEET, Philadelphia, Secretary & Actuary.
R. S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATING insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. K. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and realize all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

POLICIES ISSUED IN GOLD OR CURRENCY.

THURSDAY MORNING, JULY 1, 1869.

Wanted, an "Issue."

The Democracy are just now in desperate straits for an "issue." Never in their whole history have they been at such an utter loss as now. They are in a condition to offer an enormous premium to any one who will construct for them a platform containing "issues" on which they can go before the people and make a fight. They can make no further opposition to reconstruction, and would merely be laughed at should they attempt it; the steady and rapid reduction of the debt under the present prudent financial management has closed their mouths on a subject which they expected to turn largely to their advantage; the general popularity of the Administration with the Republican party has deprived them of their cherished hope that the Republicans would become dissatisfied and divided; and the practical certainty that the suffrage amendment will soon be ratified by three-fourths of the States and become a part of the Constitution, shows intelligent ones among them the futility of confining the contest entirely to this question. Never were they so nonplussed in their lives.

In the East the party has practically given up the fight against the suffrage amendment, but its orators in the Pacific States still try to make it appear that the amendment is an unsettled "issue," and that the action which Oregon and California will take upon it will determine its fate. This notion is entirely erroneous. The matter will be settled without the voice of either of these States. It makes no difference how they vote upon it; with or without them the amendment will have the votes of three-fourths of the States. To defeat the amendment ten States must vote in the negative. This number cannot by any possibility be secured. The States which have already rejected it are Kentucky, Delaware, Maryland and New Jersey (4). Oregon and California would make but six. Can the most sanguine Democrats name four more States which can be counted on, with any probability, to reject it? Most of the other States, let it be remembered, have already ratified it. The list of ratifying States has ——— grown to twenty-four. This list in all probability will be increased to thirty before our next election in Oregon. The amendment is sure of this number of States without either Oregon or California.

Our Democratic brethren in the Pacific States are ——— wasting a great deal of breath in piping against the inevitable. It will be decided without our votes, and it makes no difference what we say about it. Every male citizen of this Republic who has attained the age of twenty-one years will certainly be a voter. The Chinese will, of course, be excluded, as they are not citizens and will not be naturalized. Our Democratic brethren in this State would do well to look for some other "issue" than the Fifteenth Amendment. They will not be able to make much of a fight on a question which can be in no wise affected by our votes upon it.

The San Francisco ——— informs us that "the Republican party is the natural ——— that it "has ——— that it "has ——— that it "wishes to reduce the ——— to the ——— of Chi——— and ——— and a ——— deal more claptrap of the same quality. Yet this same paper and its ——— co-laborers are continually denouncing the Republican party for the existence of the tariff, which is the only thing that keeps wages in this country above the "lowest level" of the wages paid in Russia and China. If the Republican party desired the "cheapest labor it could get" it would immediately adopt the doctrine of free trade which Democrats are clamoring for so loudly. But as the Republican party is *not* "the natural enemy of the laboring man," it proposes to protect his labor against cheap foreign competition.

Occasionally there is a Republican who talks about living "that noblest motto of political economy, free trade." Considering that there is no civilized nation under the sun which has ever put its faith to free trade, and that the United States, in its present condition of industrial development and financial necessity is vastly further from free trade than any other nation, this "motto" is superlative nonsense. Government exists for no purpose but to protect rights, interests and principles. Henry Ward Beecher lately pronounced for a repeal of all "protective" laws. Yet the Government protects his labor by granting him copyrights. What right has he when he produces a novel to claim that his publisher shall be protected against any other publisher? It has been keenly remarked that a gentleman who has just got a copyright for a book looks very beautiful as President of a free trade meeting.

Those who denounce all interference of Government with the operations of commerce or business as either meant to repudiate taxes of every description, or they mean nothing. The principles on which free trade is usually advocated is simply a denial of all right of taxation. The Government "interferes" with the operations of the citizen no more when it lays a duty on imported merchandise than when it taxes the merchandise on his shelves. The bulk of our revenue has always been derived from the tariff. And let theorists say what they will, the bulk of it must always come from the same source. We must have tariff for revenue, and incident to it we have right to protect American industry. Those who "desire the cheapest labor they can get" are those who go it blindly for that unattainable result, free trade.

RUSSIAN TRADE.—The Philadelphia *Press* says: "A far-sighted and enthusiastic trader of Alaska, finding it impossible to compete with the monopolists that have fastened themselves upon that section, has abandoned the field, and determined to tempt his fortune in Siberia. His removal is based upon the hypothesis that the commercial relationship of that part of Russia toward San Francisco must be as intimate as that of China and Japan. No one can deny that articles of such commerce exist in Siberia. She may not have the same variety of staples, nor the same ingenuity to manufacture as the more southern countries, but she possesses a long and noble river, draining a vast interior section, and a port of entry which is exceedingly inviting. Already a project is on foot to connect the Amoor river and its tributaries with our own country by a regular steamship line. This accomplished, the dreams of the ardent Alaskan may meet with speedy fulfillment. Stranger things have happened. Destiny may be sown and reaped in a generation.

Caleb Cushing has taken strong ground in favor of Senator Sumner's speech on the *Alabama* claims, and it is said that Robert J. Walker is preparing a powerful paper in support of the same idea.

The Chicago *Tribune* talks with force and justice about the election riots in Washington. We know that white Democrats, says the *Tribune*, "in New Orleans, Indiana, Pennsylvania, and New York city, have within a year committed precisely the same outrages of which these colored Republicans in Washington have been guilty, and that not a hair of the head of one of them has been touched for it. But we want no such precedents to be tolerated in the Republican party."

Virginia, it seems pretty clearly established, will elect Walker, Conservative Republican, Governor, adopt the Constitution expurgated of its disfranchising and test-oath features. The most diverse elements support Walker, "extra Billy" Smith and Hunnicut, for instance. Even the Conservative Virginians—"the old blood" of the State—accept the equality of the negro at the polls and before the law. All they ask is the admission of the State into the Union, and the return of peace and prosperity through local self-government. They are vastly ahead of the Oregon Democracy.

The composition of the Ecumenical Council, which is to assemble on the 8th of December next, at Rome, is as follows: 12 Patriarchs, 122 Latin Archbishops, 6 Eastern Archbishops, 660 Latin Bishops, 63 Eastern Bishops of different rites, 36 Archbishops, and 196 Bishops in partibus, 1 Patriarchal See, 16 vacant Archbishoprics, and 106 vacant Bishoprics; the prelates composing the titular hierarchy, 981, including delegates, vicars and apostolic prefects. Thus the whole number of members of the Council will be about 2,000.

H. Parker, Esq., of Walla Walla, now in New York City, has printed a letter for circulation in the East, giving a description of Walla Walla valley and Eastern Oregon. He has had the letter printed in the New York *Tribune*, the *Scientific American*, *Moore's Rural New Yorker*, and many other papers of large circulation. Of the letter itself two editions have been printed and sent to persons seeking information. This is a good plan to attract attention to this section of country and ought to be imitated extensively by persons in Oregon and the adjoining Territories.

The Albany, New York, *Journal* puts these pertinent questions: "Where are Secretary Boutwell's opponents? Where the financial fledglings who felt called upon to seek to disturb business by decrying the financial policy of the Government, when that policy had the merit of being understood, and could be confirmed to? Where are the teachers of the Treasury? Where the kids who know more about financial principles and policy than the Secretary who made their laws a study for years? The debt decreases—the currency contracts—everything moves slowly towards solidity. Where are the howlers? Will they not come forth? Let not modesty forbid."

The ratification of the Fifteenth Amendment to the Constitution by New Hampshire makes, according to our tally, says the New York *Times*, including Indiana, twenty-four States which have given it their approval. The votes of twenty-eight are required for the completion of the work. Vermont is sure to ratify it so soon as its Legislature assembles next fall. The act providing for the reconstruction of Virginia, Mississippi and Texas demands its ratification by those States as a preliminary to their full restoration to the Union. This will make up the sum total of twenty-eight; but we presume that Georgia will also be required to ratify the amendment ere she is admitted to representation in Congress, while there is little doubt that Rhode Island will give her voice in favor of the measure when her Legislature meets in January.

THE WEST.

The Montana *Post*, the oldest paper in the Territory, has suspended publication.

Workmen and hawsers have been sent up to Snake river to bring the steamer *Shoshone* down to the Columbia.

The Democrats of Montana have renominated Cavanaugh for Congress. Some of the papers of the party bolt the nomination.

As General Thomas and staff were driving out near Boise the other day the team ran away with them and threw the whole party out. Col. Sinclair was badly hurt. General Thomas escaped without injury.

Between twenty and thirty wholesale firms in Omaha do a business of over one million of dollars a year, and some range as high as six millions. Many of the retail houses reach fifty to eighty thousand dollars.

A Walla Walla paper says: A farmer friend living on the Touchet, informs us that the crops in that part of the valley look wretched. His own estimate is that the farmers will not make more than a half crop this season.

A Walla Walla paper learns that the farmers in Grande Ronde valley are threatened with an almost entire loss of their labor on their crops, on account of extreme drought. Even in the Cove, the best watered portion of the valley, only small sections of fields, which have had artificial irrigation, will pay for the cutting, and these will afford but half the expected crop. Hay, too, which is usually very abundant, is almost an entire failure.

The Boise *Statesman* of June 24th announces that Gen. George H. Thomas arrived at that place the day before. The *Statesman* says: His present tour, which will extend over the greater portion of the Pacific coast, is an earnest of his desire to acquaint himself with the character of the country, the wants of the soldier and the proper sites for military posts which will afford the best protection to settlers and travelers from Indian outrages. The General and party leave this evening for Umatilla.

The Walla Walla *Union* thus speaks of the project to extend the telegraph to that place: Our public spirited townsman, I. T. Reese, Esq., is talking telegraph strongly, having on a recent trip down the Columbia had a consultation with the principal men of the O. S. N. Co., who own the line from Portland to Umatilla. The company propose to allow the line to be extended to Walla Walla, if our citizens will build it, and will give us the benefit of all messages over their line, and take a very reasonable percentage for messages transmitted by us. Mr. Reese proposes to organize a joint stock company, (as well as to receive all voluntary contributions,) to build this line from Umatilla to Walla Walla. The whole cost need not exceed $3,000.

A newspaper published in the regions of Lakes Memphremagog and Winnepesaukee, says that "fish of Lake Holleybunkemunk, Maine, are said to be superior to those of either Lake Weeleybaycoo or Mosetockmeguntuck. Those of Chaubungogungamaung were very fine, but they all got choked to death in trying to tell where they lived."

Mr. Emerson says that, "If the vote is to be given to women, then we must arrange to have the voting clean, and honest and polite. The State must arrange to build houses, instead of dirty rooms and corner shops; the State must build their vote, in the presence of their sons, and brothers, and fathers."

The St. Paul *Press* says "Half the business of the Courts in Illinois seems to be to satisfy the vengeance of women because they can't get the men to marry them, and the other half to enable women to get rid of men who have married them."

DUBLIN, June 28.—Large meetings were held yesterday on various parts of Ireland by those in favor of the release of the Fenian prisoners. At the Cork meeting 5,000 persons were present, and at Dublin 7,000. Similar meetings were held at Limerick and Drogheda. In all cases strong resolutions were passed.

DUBLIN, June 29.—At a meeting last evening to urge on the Government the release of the Fenians, nearly 4,000 persons were present. Butts, a prominent lawyer, made a speech in which he said all true Irish ought to bide their time and put their trust in God and keep their powder dry. If the British Government persisted in keeping those men incarcerated in its prisons, conciliation would be useless. Williams, of Dungannon, made an impassioned speech. He declared the Fenian prisoners would not accept mercy. They demanded justice from Ministers. The latter refused it. Let the blood be upon their own hands. He would not, however, advocate a resort to the sword, for that doctrine is now out of time.

AMSTERDAM, June 28.—The printers of this city have struck for an advance of wages and shorter hours of work.

Accident in California.

CALLAHAN'S RANCH, June 30.—Yesterday, as Messrs. Swain and Morgan, of Rough and Ready, were passing over Scott mountain grade, they met some freight teams. The grade was rather narrow, and in attempting to turn out, their team became unmanageable and ran off the grade. Swain and Morgan escaped serious injury, but the buggy was smashed and team injured.

GENERAL NEWS ITEMS.

Santa Anna is in St. Domingo writing his autobiography, and is soon coming back to this country.

George Hudson, the once famous "Railway King," lives in a garret in Paris, and is absolutely dying from want.

A movement is on foot in New York for the election of Chase to the Presidency in 1872, headed by an old granny association.

It is discovered that Abraham Lincoln was of German descent. The German paper which starts this story says that his grandfather's name was Lingen, and that he lived at Stollwerder, near Magdeburg.

Mr. Vice President Colfax, in a letter to the Chicago *Tribune*, denies most emphatically the statement of Zeta, the Washington correspondent of that paper, that there was a difference or falling out between himself (Mr. Colfax) and President Grant, growing out of public appointments. Mr. Colfax says: "There never has been, nor is not now, the shadow of a shade of such unfriendliness on either side."

During the rebellion General Beauregard, in a general order, urged the Southerners to call the friends of the Union by no other title than "Abolitionists,"—the "chivalric" mind conceiving this to be the most opprobious of epithets. The chief of staff of this same Beauregard, General Jordan, who then sympathized fully with the ideas of his leader, is now in Cuba, fighting in behalf of the "Abolitionists" of that island.

The last words of Dulce, on leaving Havana, were, "With me departs the last remnant of Spain's dominion in America." Events are fast justifying this statement. The volunteers have now complete control of all that part of the island, not possessed by the insurgents, and they have compelled the Captain General ad interim to countermand the requisition for five thousand more regulars, made upon the Home Government.

The guano on the Chincha Islands is nearly exhausted. In a few months these islands will be deserted, and then all the ships now engaged in the trade will make for the Guanape Islands, five degrees south of the equator. There is a supply of guano at Baker's Island, in the Hawaiian group, estimated at from 250,000 to 2,000,000 tons, and worked by the United States. It is, perhaps, not generally known that there is also a small deposit on some of the islands off the northwest coast of Norway.

A Matrimonial Sensation in Washington.

[From the Washington Chronicle, June 18th.]

The people of Washington have had a genuine matrimonial sensation, in which soft words, boasted wealth, reciprocated affections, a larceny, a private marriage, sudden start on a wedding tour, a rejected and exasperated suitor, capture of a dishonest bridegroom and prison bars are all curiously intermixed. The hero is a man giving the name of William P. Brown, and representing himself to be a wealthy Georgia planter, possessed of a magnificent plantation, stately mansion, etc., but impoverished by the war, whose errand to this city was to dispose of 400 acres of the family estate, to raise the means wherewith to stock and improve the remainder. This man secured the affections, or rather the person of Miss May Carpenter of Washington, by representing his wealth, broad acres, and reputation as particularly desirable, and promising to settle $10,000 on her in case of a marriage. These negotiations were carefully kept from the ears of the paternal head of the family, and even when the day of the marriage had been arranged, he was still kept in ignorance of the whole matter. The plans had been carefully laid, and, taking advantage of Carpenter's absence on Monday forenoon, the pseudo planter and Miss May were joined in the holy bonds of matrimony by the pastor of a fashionable church not two squares distant from the residence. But two or three persons witnessed the ceremonies, and immediately upon their conclusion trunks were hurriedly placed on a hack in waiting, the bride and bridegroom, after farewell salutations and a few feminine tears, entered the vehicle, the impatient John slammed the door, and the happy couple were off for the sunny South. The father's indignation may be imagined when he learned the truth in the evening from a younger sister. To add to the confusion, the lover of the fickle May, a young clerk in the War Department, who expected to marry the lady himself in the Fall, called to see the object of his affection in the evening. Father and lover started furiously for Alexandria, where they intercepted the fugitives at the hotel. There was no duel. The young lover did not punch the head of his successful rival; but there was simply a reconciliation, on the condition that Brown should establish his good reputation the next day. The party of four returned to Washington. The next morning Brown gave evasive answers. Carpenter suspected he was a swindler. About noon, Mrs. Carpenter discovered that a valuable velvet cloak, a heavy gold chain and a gold pencil, had been stolen from the house. It was at once suspected that Brown was the guilty party. A warrant was procured. Brown passed the night behind prison bars. He was committed next day in default of $300 bail. It is stated that Brown committed the larceny in order to meet his matrimonial expenses. Thus drops the curtain on one of the strangest sensations with which the appetites of Washington gossips have been regaled for a long time, and fortunate it is for the bride that such decided action was taken by her father in the case, for her life, in company of such a rascal, would have been most unhappy, if not wretched.

Speaking of the wholesale turning out of office-holders in the South, the Richmond *Examiner* says: "It is like things must have looked to Noah when he shipped out into his front porch after the shower."

Gen. Sheridan is equally great in peace and in war. His last achievement was tendering a benefit, almost single-handed, to a second-rate actress in Chicago.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN

DATES TO JUNE 30.

Washington News.

WASHINGTON, June 29.—The Commissioner General of the Land Office has just received returns showing the disposal of 22,850 acres of public lands at Eucfaire, Wisconsin, during the past month. Nearly all the land sold for cash, but some was taken under the homestead law and located with military land warrants.

The *Times'* special says it has been decided to send a special Government Agent to Cuba to examine and report on the condition of affairs there and to be paid from the secret service fund

CHICAGO, June 29.—A Washington special says there is much excitement among the Treasury clerks, in anticipation of the many removals being made to-day. Over one hundred female sweepers and scrubbers were discharged yesterday, all poor women with scanty means of support.

The Treasury Detectives have succeeded in bringing up a gang of counterfeiters at Long Island. They captured a quantity of presses, dies, etc.

Secretary Fish went to New York yesterday and will be gone a week. Commissioner Delano goes to-day to be absent ten days. Treasurer Spinner returned to-day. Third-Auditor Clark is quite ill. Reverdy Johnson arrived last night and dined with Andrew Johnson.

The *Tribune's* special says the new Secretary of the Navy creates a favorable impression with everybody. His first order regarding the manner of details is quite an innovation on former customs, placing details to ships in charge of one person, subject to approval of the Secretary of the Navy.

CHICAGO, June 29.—The *Post's* Washington special says it is rumored in influential circles that the late change in the Navy Department was impelled by the presence of Admiral Porter, who is Secretary in fact. Borie felt that he could no longer incur the odium of having his name attached to orders which he did not originate or approve. Conspicuous among these orders was that one changing the names of navy vessels. Borie did not write or consent to it. Porter made the order. Robertson succeeds to the honors of the office. Admiral Porter remains in charge of the Department.

General Butterfield's bonds as Assistant Treasurer of New York were received to-day. He will probably assume the duties of the office on July fifth.

Despatches received at the Navy Department announce the commencement again of civil war in Japan.

The steamer *Stonewall* had been severely injured and one war vessel lost in a severe storm.

The British Minister recently had a long conference with Roberts, the Spanish minister. It is generally believed the interview was in relation to neutrality. England looks with interest on moves regarding the Cubans, as they have such important bearing on her course in not enforcing the neutrality laws during the late rebellion.

WASHINGTON, June 30.—In anticipation of a speech from ex-President Johnson quite a crowd gathered at his hotel to-night, but there was no demonstration up to half past eleven. It is understood that the object of the visit of Reverdy Johnson to Washington is to have a final settlement of his accounts at the State Department.

Bradley argued his case about an hour yesterday and gave his opinion quite freely about Judge Fisher.

Judge Wylie said that his convictions about the case were clear and strong and he should throw the case out of court.

The record will be made up in such a way that Bradley can take an appeal, which he will probably do.

The Secretary of State and the President had a talk about Cuban affairs yesterday, since which time Cuban sympathizers tell their friends that the Administration need not be expected to do anything for Cuba for the present. They print a two column statement of the case to-day, the paper being substantially the same as that laid before the President, recently.

The President and Cabinet are a unit in the opinion that our neutrality laws must be enforced and the whole power of the Administration be used in sustaining the local officers whose business it is to carry out the law.

New York News.

NEW YORK, June 29.—Church, the artist, has returned from Europe.

It is stated that the steamer *Catherine Whitney* which was seized by the government is the vessel that was used as a decoy and while the officials were watching her movements with several revenue cutters, the real expedition embarked on another steamer and safely departed. Marshal Barlow reiterated the statement that no expedition has left within a week. When the officers seized the *Catherine Whitney* there were no Cubans on board, but Gen. J. O'Conner was, who was arrested.

General Dix is reported as saying that President Grant has fallen at last into the hands of politicians, and though he may mean well, he can't resist the influences around him. His appointments have been disappointments, and unless he retrieves himself his ruin will be accomplished.

CHICAGO, June 29.—A *Tribune* New York special is mostly devoted to Cuban news and rumors. The *Sun's* reporter says a tug left the city and put men aboard without accident, sixty miles down the coast. While passing the forts and a fleet of revenue cutters, they stopped the engines and floated down with the tide. The Marshals and the deputies searching for the members of the expedition, were left behind.

The detectives are confident of catching the Ocean Bank robbers.

NEW YORK, June 27.—General Closeret, who was expelled from France, was a passenger on the *Penn*.

The bark *Harriet Linsley* sunk yesterday by colliding with the steamer *Hannah*. One of the crew was lost.

News is received of the explosion of the powder magazine on the Sombrero, at the Guano Islands, in the West Indies, on the 31st of May. Seven men were instantly killed and twenty others were wounded.

The loss of the depositors by the robbery of the Ocean Bank is believed to exceed $500,000. The bank lost $57,000.

It is rumored to-day that Col Ryan has been arrested and that several other leaders of the Cuban expedition will be arrested soon

It is said that Colonel Roger A. Pryor will be indicted for an attempt to violate the neutrality laws.

General Garesnia has been held to bail in the sum of $5,000 to answer the charge against him, and $4,000 to keep the peace.

Some say that the expedition has gone on the *Quaker City*, while the authorities positively declare it is under surveillance within twenty miles of New York.

NEW YORK, June 29.—It has been ascertained beyond doubt that an expedition of four hundred men destined for Cuba sailed from this port on Saturday night.

Lieut. Commander W. H. Van Vleet, U. S. N., died last evening of yellow fever, on board the hospital steamer *Illinois*.

Several expeditions have returned to New York reporting that they had been on the steam tugs at Long Island Sound, expecting to be put on the steamer *Catharine Whiting* which was seized, having run short of provisions. The two tugs put into New London for food and water, when some deserted and came back to the city. They state that two tugboat loads of expeditionists were put on the steamer Saturday night and it is expected that they got safely off to sea.

A New York special says complaints have been presented against the Commissioners of Immigration owing to improper treatment of passengers arriving at Castle Garden. An investigation will be made shortly. Mush will be brought against agents and owners of emigrant ships for overcharges and overcrowding.

NEW YORK, June 29.—During the past two days late borrowers in order to make up their accounts at bank have been forced to pay as high as one-half of one per cent interest for the use of funds over night. Yesterday the demand continued till after four o'clock, some banks having to remain open to accommodate their customers who were tardy in making up balances The interest paid for one day was at the rate of 180 per annum.

In regard to the Ocean Bank robbery, several new items, which apparently have little importance, have been made known A practical mechanic has examined the "kit" of instruments left by the burglars, and says that only one or two of them have been recently used The stuff of the sugar found was only 28 inches in length, while the holes bored in the floor were 24 inches deep. The real mystery of the whole affair lies in the manner in which the combination lock was opened. It is suggested that the door may not have been locked at all.

Political

PORTLAND, Me., June 30.—The State Temperance Convention has nominated L. G. Hutchburn for Governor, and appointed delegates to the National Convention at Chicago, August 1st. The prohibition resolutions of the Republican Convention were almost unanimously tabled.

RICHMOND, June 29.—At a large Republican meeting this afternoon, a white Republican disrupted from one of the speakers. The negroes attacked and beat him severely, and he was finally rescued by the police Walker, Conservative candidate for Governor, arrived to-night. He was serenaded and made a speech.

BANGOR, June 29.—The State Democratic Convention nominated S. P. Kimball for Governor, but he declined. Gen. Frank Smith, of Waterville, was selected in his stead. The resolutions adopted favor free trade, the maintenance of the rights of the States unimpaired, the equality of taxation, including U. S. bonds, uniform currency, maintaining an opposition to the centralization of power of the General Government, and an economical administration of the public affairs.

CONCORD, N. H., June 30.—The Fifteenth amendment passed the House. It has been made the special order in the Senate for Thursday next.

NASHVILLE, June 30.—S. H. Benton was killed to-day by Capt. J. R. Simpson, at Springfield, Tenn. Simpson gave himself up.

ALBANY, June 29.—The *Journal* publishes the argument by Hon. E. W. Keyes, Deputy Superintendent of the Bank Department, reviewing the opinion of Attorney General Hoar, that national banks cannot be converted into State institutions. Mr. Keyes makes a strong argument controverting the opinion of the Attorney General.

It is stated that Hon. John A. Cresswell is at the head of the enterprise to bring coal from Pennsylvania to this city via the Susquehanna.

LANCASTER, June 30.—A terrible explosion occurred in the iron works of B. B. Thomas & Co., of this city, yesterday. While some of the workmen were engaged in removing the lining from the furnace, a portion of the structure fell, carrying with it the scaffolding upon which the men were standing. One man was instantly killed and two others injured in such a manner as to render their recovery very doubtful. It is rumored that Scherlith fell into the furnace and was instantly burned up.

CINCINNATI, June 30.—The city officials of Louisville arrived to-day on an excursion over the Cincinnati, and Louisville railroad, and are being entertained by the Mayor and Council of Cincinnati.

By Atlantic Cable

PARIS, June 29.—The Emperor yesterday visited the city of Beauvais. The Mayor and Bishop of Beauvais met the Emperor at the city gates, and conducted him to the Hotel De Ville, where they presented an address of welcome. His Majesty, in reply to the Mayor's address, returned thanks for the welcome he had received at the hands of the municipality and people, and remarked that the Mayor and his colleagues at the city at the inauguration of the statue to the heroine Jean Fouget La Hachette. He was pleased to see the progress which the city, and the department of which it was the capital, had made since that time in agriculture, manufactures, and trade, and proved that their prosperity was mainly due to the order which had reigned in France for the past seventeen years and he was certain that this condition of order would never cease to exist.

In response to the Bishops of Beauvais, the Emperor said the addresses of Bishops, couched in language of piety, were always received with deference, and of his prayers were heard religion would be honored by a happy people and France would be great and prosperous.

Henri Rochefort, editor of *La Lanterne*, has been convicted on the charge of illegally introducing his journal into France and sentenced to three years imprisonment and a fine of three thousand Francs. To these penalties are added a forfeiture of his rights of citizenship for three years, including the right to vote in any election or occupy a seat in the Corps Legislatif.

Samonson and Jourdan, editors of the *Steele*, have been fined 500 francs each.

The editor of the *Opinion Nationale* has been condemned to three months imprisonment. All of these three for violation of the press laws.

The session of the Corps Legislatif opened today. The Emperor was not present. The Minister of State made the opening speech. He said the Chamber was convened to verify its authority. The renewal of the Corps Legislatif by universal suffrage affords a natural opportunity for the nation to express its thoughts, aspirations and wants, but political results and manifestations should not be precipitated. Government would present resolutions and projects of law in order to realize the wishes of the people.

Additional articles appear in the *Monitour* and *Pays* to-day on the sale of the Danish West Indies to the United States Both journals concur in declaring that honor and self interest alike demand of the American Government the faithful execution of the treaty concluded with Denmark.

MADRID, June 28.—The Republicans in the Cortes propose to move a vote of censure against Sagosta and Senor Herrera for their recent tyrannic conduct.

Prince Henri de Bourbon has taken an oath to support the new Constitution. A battalion of soldiers at Barcelona refused to take the oath.

LONDON, June 29.—The *Star* to-day, in commenting on the reported departure from New York of Col. Ryan's expedition, brings the circumstances to bear on the question of the claims now pending between the United States and Great Britain. It says: We are interested in the conduct of the U. S. Government in this matter. The neutrality laws must be thoroughly enforced or the Americans will lose all they have gained in public opinion, which insures a fair consideration of the *Alabama* claims. The *Alabama* escaped with an ordinary merchantman's crew on board. We are justly held to have incurred a high degree of responsibility for the consequences of her departure. The departure of 500 men from New York harbor, as far as can be judged from present accounts of the affair, appears to be an infraction of neutrality just as flagrant as the escape of the *Alabama*, and one which could have been much more easily prevented.

ROME, June 28.—The Pope delivered an allocution yesterday which reviewed the condition of the churches in Italy and other countries. It deplores the Italian law for the subjection of clerical students to military conscription as an infringement of the rights and liberty of the Church, owing to the evils afflicting the Church in Austria and Hungary, on the complaint of Bishops of those countries. The events in Spain give cause for sadness and mourning. The zeal of the Bishops in Poland is undaunted by Russian persecution and is a source of consolation. The allocution concludes: Let the enemies of Christ consider the fate of His enemies. Let us pray that they may be restored to the path of justice and that the Church may be crowned with fresh triumphs

Dispatches from various parts in Illinois, Iowa, Wisconsin and other Northwestern States, indicate great damage done to the crops, especially to corn. The country in many parts is entirely overflowed. The railroads have been damaged and trains are greatly delayed. One life was lost. Should not some dry weather now supervene the wheat will be much damaged.

NEWPORT, June 30.—Yesterday a man arraigned on a charge of rape, was dangerously shot in court by the brother of the betrayed girl.

MEMPHIS, June 30.—A man was killed by sunstroke in this city yesterday.

BOSTON, June 30.—The commencement of Harvard attracted many visitors. The literary exercises were much applauded. The degree of Doctor of Laws was conferred on John G. Palfrey and Gov. Cladin. The testimonial to Gilmore at the Coliseum was very successful in point of numbers and the general excellence of the performance. About $25,000 were realized.

PITTSBURG, June 29.—The Senate of the Fenian Brotherhood is in session here. It is understood they are preparing a programme of action on the *Alabama* claims so far as they affect the Irish question.

Mrs. Shugart is on trial at Butler, Penn., for poisoning her husband last fall. Her children testify to buying of arsenic and the discovery of the remains of the husband. She will probably be convicted

SCHENECTADY, June 29.—Gov. Hoffman addressed the Alumni of Union College to-day. Hon. Ira Harris, who was attacked by paralysis at a meeting of the Alumni to day, has recovered his speech and is improving, but will not be able to preside at the commencement to-morrow. No election of President has yet been made.

ALBANY, June 29.—The *Journal* publishes the argument by Hon. E. W. Keyes, Deputy Superintendent of the Bank Department, reviewing the opinion of Attorney General Hoar, that national banks cannot be converted into State institutions. Mr. Keyes makes a strong argument controverting the opinion of the Attorney General.

It is stated that Hon. John A.

Important Facts!!!

THE CAPITAL STOCK

—OF—

THE PACIFIC MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA,

IS PAID IN, IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company, and determine from that knowledge whether the affairs of the Company are likely to be honestly and fairly administered for the benefit of the Insured.

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permits or extra rates required for traveling East or in Europe.

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the proportion of Premiums received, or pay the equivalent in cash.

The rate at which we have been sending money East for Life Assurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, enormous as it seems, is totally eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent., compounded annually for ten years, is $4,952,167 27; here at 12 per cent. for four years, and 10 per cent. for six, compounded monthly, $25,090,906 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time

U. S. MARSHAL'S NOTICE.—DISTRICT OF OREgon.—Whereas a Libel has been filed in the District Court of the United States for the District of Oregon, on the 14th day of June, 1869, on behalf of the United States, against the Steamboat "Ann," her machinery, tackle, &c., alleging in substance that during the months of March, April and May, 1869, the said steamboat "Ann" was used and employed in transporting goods, wares and merchandise over the waters of the Willamette River, in the District aforesaid, navigable waters of the United States, without there having been first obtained from the proper officers a license therefor, as required by the laws of the United States, and praying process against said steamboat, her tackle, &c., and that the same may be condemned to pay the penalties thereby incurred: Now, therefore, in pursuance of the warrant under the seal of said court, to me directed and delivered, I do hereby give notice to all persons claiming the said steamboat "Ann," her tackle, &c., or in any manner interested therein, that they be and appear before the said Court, to be holden at the city of Portland, on Monday, the 5th day of July, 1869, at 10 o'clock in the forenoon of that day, then and there to interpose their claims and make their allegations in that behalf.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,

SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up, at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits; contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from *Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum* and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.

Terms $20, by the single week, or $80 for four weeks, Board, Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well.

Terms for Ladies, $20 a week, or $

GEORGE FRANCIS TRAIN'S LECTURE.—We went to hear Geo. Francis Train, last evening, with a view of reporting a synopsis of his lecture. Had we known beforehand the style of it, we never should have been guilty of entertaining *such* an intention. The man and his style and his speech are inimitable. There is no use trying to describe the one or report the other. An expert short hand writer might report the words he utters, but that would not be half the speech. The other and greater part would be the dramatic acting, the indescribable style of utterance, the facial expression and numerous other accompaniments of the man's words which, altogether, go to make up the speech. He has been accused of rambling and incoherence and lunacy and a dozen or so of similar "eccentricities." His speech last night was certainly rambling, and he says he intended it to be nothing else a mere preliminary to the course he intends to deliver during the week. It was incoherent and he says it was purposely so. He was not educated into the University style of coherence. His illustration of the coherence of the College gentlemen was intensely amusing, and the audience voted largely in favor of incoherence. He says frankly that his object in coming here is to make money, and we guess he will do it. The people may vote him the chief humbug of the age—and the returns on that side would foot up largely—yet, there are few who will not go once or oftener to see and hear him, and everybody ought to do it. They will get their money's worth, either in genuine oratory, or in dramatic acting of an original and inimitable style, or in humbug, or in *humbug*. We have abandoned the thought of catching and printing what he says, and we cannot *illustrate* his manner; so, perforce, everybody must go and see and hear for themselves. He will lecture again on Thursday evening on "The Future of O. A."

MILITARY ITEMS.—Through the politeness of Capt. Mackenzie, we are furnished the following military items:

General Thomas was slightly injured by being thrown from an ambulance at Fort Boise the other day, and will probably not arrive in this city before the latter part of this week or the first of next.

Leave of absence for sixty days, with permission to apply for an extension, has been granted Lieut. John P. Peterson, A. A. Q. M., at Camp San Juan Island.

Captain McGregor, accompanied by Lieut. L. Garvey, left Fort Klamath with his Company "A," 1st U. S. Cavalry, on the 21st instant, en route for Arizona, via San Francisco.

Brevet Major O. E. Gr[illegible], Assistant Surgeon, arrived by steamship *Oriflamme*, and has been assigned to duty as Attending Surgeon at Fort Lapwai, Idaho, vice Dr. Storrer, who reports to the Medical Director for reassignment.

Lieut. Eschenburg, 23d Infantry, returned to Fort Vancouver Saturday evening last from Fort Boise, where he has been with a detachment of recruits.

CIRCUIT COURT—UPTON, Judge.—Proceedings of yesterday:

State of Oregon vs. James Hayden; indicted for murder in the first degree; submitted to the jury. Parrish and Whalley for the State; Stout and [illegible] for defendant.

State of Oregon vs. George Forrest; indicted for assault with intent to kill; jury empannelled and testimony heard. Parrish for State and J. W. Whalley for defendant.

State of Oregon vs. John Brouchard; defendant when called failed to appear, whereupon his bail money of $2,000 was declared forfeited; bench warrant ordered to issue.

E. C. Bronough vs. Hiram Smith; demurrer to complaint sustained; leave until Wednesday granted plaintiff to file amended complaint.

Wm. Oliver vs. The N. P. Transportation Co.; demurrer to complaint overruled, and leave until Monday granted defendant to file answer.

Clara Sullivan et al. vs. O. S. N. Co.; demurrer to complaint overruled.

OUR TO-NIGHT.—Miss Octavia Mercier's third and last concert, will take place this evening at Oro Fino Theatre. She is to be assisted by her younger sisters, Misses Blanche and Corrinne, and Prof. H. G. Grob. The following is the programme:

Part First—1. Piano Solo, Prof. H. G. Grob; 2. Vocal Solo, Miss Octavia Mercier—Ecstasy, (Valse Brilliante,) Luigi Arditi; 3. Piano Duet, Corrinne and Blanche—M[illegible]; 4. Vocal Solo, Corrinne Mercier—"Rock me to sleep mother;" 5. Vocal Solo, Miss Octavia Mercier—Il Sogno, H. Happy dreams.—*Franz Abt.*

Part Second—6. Piano Solo, Miss Octavia Mercier; 7. Vocal Duet, Miss Octavia and Corrinne—Fading Away. 8. Violin Solo, Prof. H. G. Grob; 9. Vocal Solo, Miss Octavia Mercier—Valse, d' Adieu, ("Come, the bark is moving.") *Jean Schneitzoeffer.* 10. Piano Solo, Prof. H. G. Grob; 11. Vocal Solo, Miss Octavia Mercier—"Robert toi que j'aime."—*From the Opera of "Robert le Diable."*

GRAND JURY DISCHARGED.—The Grand Jurors having ended their labors, were discharged on Monday. Upon coming into court, the Foreman presented a report signed by five jurors, and Messrs. Fahie and Hurd of dissenting minority, [illegible] setting the management of the Portland Asylum and the Quality Pudding from the views of the report presented by the foreman. The court said that the jurors that their report must be unanimous or it could not be received; whereupon they went out, and being unable to agree, they finally came in and said at all. Messrs. Fahie and Hurd said in their minority report that while the inmates of the Poorhouse returned fourteen persons as [illegible] of the institution, they were able to find only five in the house or on the farm. In addition to the Asylum, they say they are satisfied that several [illegible] are kept in confinement who are perfectly sane; and they recommend an investigation.

BURGLARY IN VANCOUVER.—Last Saturday night as Vancouver, the tailor shop of Mr. Miller, was broken into and [illegible] of a considerable amount of fine cloths [illegible] and some ready [illegible], valued in the aggregate at about three hundred dollars. The two persons suspected of the robbery were tracked next day to this side of the Columbia, thence to Oregon City, where they were arrested upon complaint of Mr. Beall, deputy sheriff of Clark county, and committed in the county jail. The stolen goods were found in the [illegible] of the robbers, whose names are Baker and Robt. Watson. Mr. Beall returned to this city and went over to Vancouver by the day afternoon, from which place he still telegraphs to Gov. Flanders at Olympia for a requisition upon their Governor for the surrender of the men to the authorities of Washington Territory.

AN ADVENTURE.—Last Thursday evening a lady living in this city was returning from Mr. Stephen Roberts, and when about six miles from East Portland on the Base Line road her horse became unmanageable from fright. Considering there must be some wild animal in the thicket along about, she turned back to the nearest house, about two miles distant. The settler armed himself with an ax and kindly volunteered to conduct the lady past the place. Upon nearing the spot, a large cougar was seen [illegible] toward them. The cougar, doubtless observing that the lady had found more congenial company, [illegible] about and lazily trotted along the road for [illegible] yards or more and then [illegible] took to the brush and was seen no more. The lady, of course, [illegible] quite a fright, and describes the varmint as "big as all out doors."

FOR SAN FRANCISCO.—The following is a list of the passengers, per steamer *Oriflamme*, for San Francisco: Mrs Brophy and two children, Seaton Williams, Mr James B Stapleton, Hegmann & Co, Wm Hoyt, [illegible] Mr James B Stapleton, Capt Geddis, J Q Hawkins, Miss Annie Waldo, Miss L Smith, J B Waldo, J H Morgan, W F T [illegible], Mrs Nolte Martin, Mrs L Keller, Miss J Higgins and 3 children, W Beckham and wife, Mr W J F [illegible] and son, H B Fallows, Miss H De Forst, W Thomas, wife and 2 children, Mrs E W Keeney, R M [illegible], and nine in the steerage.

REGATTA NOTICE.—All persons wishing to enter their boats for the Regatta, on the 5th of July, are requested to meet at Buchtel's Gallery, at 7½ o'clock this evening, for the purpose of appointing committees and completing other arrangements necessary for insuring success to this, the first enterprise of the kind ever undertaken in Portland. The race will be open to all sail boats, and as many as can are requested to participate and thus render it as interesting as possible. Valuable and appropriate prizes will be presented to the winners immediately after the race.

REAL ESTATE SALE.—Remember the sale of real estate to come off this morning at 10 o'clock, in front of the Court House door. Guardian sale of lots 5 and 6, in block No. 50, corner Fourth and Hamhill streets. These lots are centrally located and will soon be good business property. We are requested to state, for the benefit of those wishing to purchase, that twelve months time can be had on one-half of the amount of sale.

RIVER NAVIGATION.—The Willamet river is getting quite low, and already the troubles incident to summer navigation are upon the steamboatmen. The *Union*, which came down from Dayton yesterday, had much difficulty in getting over the bar at the mouth of the Yamhill river. The Upper Columbia has become so low as to render navigation impracticable beyond Wallula.

COMING OUR WAY.—A letter from J. H. Semple, U. S. A., dated Ft. Stevens, June 27, says: "A distinct shock of an earthquake, causing oscillation of the houses and lasting about a second, was felt at this post this morning (Sunday, June 27) at 6 o'clock." The people of the Pacific coast may well begin to shiver in their boots, when this already-going old Webfoot begins to quake.

MR. GARFIELDE.—Mr. S. Garfielde, Delegate in Congress elect, from Washington Territory, arrived at this city last evening, en route to the eastern part of the Territory. He will remain there some ten days or two weeks, and will then return by way of Portland.

GOING TO WASHINGTON.—Senator Williams took passage by the *Oriflamme* last evening for San Francisco, from whence he will proceed by railroad to Washington. He goes on business which requires his immediate attention, and will be absent probably a month.

DELAYED BY AN ACCIDENT.—An accident occurred last evening to the press upon which the *Commercial* is printed, delaying the issue of the paper about two hours.

ARRIVAL.—Superintendent Meacham starts this morning on a visit to his home in the Blue Mountains, to be absent ten or twelve days.

THE STATE FAIR.—The State Fair will be held this year during the week commencing with Monday, the 11th of October.

SHIPMENT OF WOOL.—The steamer yesterday took away near six hundred bales of wool—an unusually large shipment.

RETURN.—The steamship *Oriflamme* sailed last evening at six o'clock, for San Francisco.

It is said that Reverdy Johnson proposes to write a pamphlet in his own defense.

Hanging Gardens of Babylon.

Mr. Jacob Abbott contributes an interesting Memoir of Babylon to a late number of *Harper's*. Nebuchadnezzar, the ruler of that famous city, had a wife who came from a mountainous district, and who was dissatisfied with the level prospect everywhere about her, as she looked forth from the palace of her husband. In order to gratify her he reared the garden that is described below:

"The vast structure built by Nebuchadnezzar, which has been celebrated in all ages as one of the wonders of the world, under the name of the Hanging Gardens of Babylon, was really an artificial mountain, or meant to be such. It was built to gratify the desire of a wife of Nebuchadnezzar, named Amytis, who, having been a native of a mountainous country toward the North, soon grew tired, when she came to Babylon, of the level monotony of the country there, and, as young brides of the Western prairies of America often do at the present day, when they remember the green declivities and summits, and the secluded and romantic dells of their native New England, she said to her husband that she longed for the sight of a hill. Her husband, therefore, undertook to build her one.

The structure consisted of a series of platforms or terraces, supported on arches of masonry, placed one above the other, and raised so high that the upper one was above the walls of the city, so that the spectator, standing upon it, could not only look down upon all the streets and squares of the town, but could also extend his view beyond the walls, and survey the whole surrounding country. The several terraces were supported on immense arches of masonry. The lateral thrust of these arches was resisted by a solid wall twenty-two feet thick, which bounded and closed the structure on every side. The platforms covering the arches and forming the terraces were constructed of immense flat blocks of stone, cemented at the joints with bitumen. Above this pavement was a layer of reeds, and then another of bitumen, upon which, at the top of all was a flooring of brick which formed the upper surface of the platform. On this foundation was laid a thick stratum of garden mould, deep enough to afford support and nourishment to the largest trees. The gardens made upon these terraces were laid out in the most costly and elegant manner, and were provided with statues and fountains, and with choicest fruits, and the rarest and most beautiful shrubs and trees, and parterres of brilliant flowers, and seats, and bowers, and ornamental arbors—with everything, in short, which the horticulturists of the day could devise to complete the attractiveness of the scene. The ascent from each of these terraces to the one above it was by a broad and beautiful flight of steps, and visitors who ascended from one to the other saw on each successive platform new and overhanging beauties, in the varied arrangement of walks and trees and beds of flowers, and in the new views of the surrounding country which became, of course, wider and more commanding the higher they ascended.

There were spacious and airy apartments built among the arches below, which opened out upon the successive terraces. These apartments commanded very beautiful views, both of the gardens before them and the country beyond. The interior of them was splendidly decorated, and they were fitted with all necessary conveniences for serving refreshments to guests, and furnish them with amusements and entertainments of every kind. On the upper platform was a reservoir of water, supplied by vast engines concealed within the structure. Pipes and other hydraulic machinery conducted this water to all the lower terraces, in order to supply the various fountains, and to irrigate the ground. In fact, so vast was the extent, and so magnificent the decorations of this artificial hill, that as long as it endured it was considered, by common consent, as one of the wonders of the world."

Puget Sound.

[From the Forest Grove Monthly.]

The importance of Puget Sound to the commercial interests of the new Northwest, is vastly overrated. Yet, the business resources of the Columbia Valley, are not less than the usual estimate of them; nor is there undue importance attached to the shorter communication with China, which it is expected will be secured through it.

It must not be forgotten that the *Columbia* is the queen of waters for all this region, and will not be likely to surrender her *rightful prerogatives* to any other body of water, although the "finest in the world." It is likely that the freight of the Columbia and Willamette, which will always be ten-fold that of all the railroads that may be constructed, are to be transferred to cars to pass overland one hundred miles to find a longer passage to the sea? No; the Columbia will attend to her own business, and ask no favors of the Straits of Fuca. The mart of exchange between this section and the wide world without, will be beside the waters of the Columbia, and her commerce will pass out with her to fill the sea. The trans-continental commerce will necessarily adapt itself to this fixed condition of business.

The vast capabilities of Puget Sound will do very well to talk about, and the imagination easily pictures a commerce on her waters that kindles commercial enthusiasm; but business will follow its own laws. It will seek the quickest and cheapest routes. There certainly is no reason why it should leave the Columbia and go to Puget Sound. The jealousy of San Francisco, or the ignorance of New York merchants, may *make* an obstacle of the mouth of the river, but it is becoming pretty well understood that there is no obstacle there to prevent a commerce equal to either city.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

Washington, D. C.

CHARTERED BY SPECIAL ACT OF CONGRESS!

APPROVED JULY 25, 1868.

CASH CAPITAL,

$1,000,000.

OFFICERS:

CLARENCE H. CLARK, Philadelphia, President.
JAY COOKE, Chairman Finance & Executive Committee.
HENRY D. COOKE, Washington, Vice President.
EMERSON W. PRET, Philadelphia, Secretary & Actuary.
E. S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATing Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

The Daily Oregonian.

WEDNESDAY MORNING, JUNE 9, 1869

California and the Northern Coast.

There are indications that the construction of the Northern Pacific railroad will soon be commenced in earnest. Preparations are making which mean something more than mere trifling and show. The land grant secured to this company is a magnificent bounty, and will alone be worth enough to meet a large part of the cost of the road.

In this enterprise Oregon naturally has a deep interest. That either the main road or a branch of it will pass the Cascade mountains where the Columbia river divides them is an undoubted fact. The commercial independence and prosperity of this entire northwest coast depends largely on a northern railroad. California is pursuing a narrow, grasping and selfish policy, and loses no opportunity to disparage this section. An independent line of railroad across the continent, accommodating Northern traffic, would bring California to a realizing sense of the actual importance of the Northern coast. It would teach San Francisco liberality, a lesson she needs much to learn.

Oregon is California's best customer, yet California studiously misrepresents Oregon and disparages all her interests. No new enterprise is commenced in Oregon if California can prevent it. No man is suffered to come here to engage in any description of business if misrepresentation of the State by Californians can divert him from his purpose or keep him away. It is the fashion in San Francisco to represent Oregon as an inhospitable wilderness, with no resources and no prospect for future improvement. People coming by the Pacific railroad are warned against Oregon. The mention of the name of Oregon is often a signal for derision. We are not complaining about this because it hurts our pride, for it does nothing of the kind: but because it is injurious to our growth and development. The most illiberal and bigoted of all mortals is the shop-keeping San Franciscoan. Even the people and press in the interior of California detest San Francisco's narrow and sordid policy. Is there any wonder, then, that the people of Oregon are not in love with it?

These are no childish complaints. We are not of those who think that the influence of San Francisco over the commerce of the Pacific coast can be destroyed. She is a great commercial center, and there is every probability that she will remain such. But she would improve much more rapidly if she would assist in developing the country that is naturally tributary to her, instead of taking so much pains to misrepresent it and prevent its advancement. San Francisco is just now exceedingly proud on account of the advantages afforded her by the Pacific railroad, and an independent line of railroad for the northern coast would do much to bring her to her senses.

Relations with England.

The following article from an elaborate editorial in the *Pall Mall Gazette* is by no means to be a true report of average English opinion in relation to the United States that country and the

We think it upon the whole best to leave things as they are. Amicable relations between two States, one of which is ever pending a war which the other says it can avert honorably, betokens a more merciful temper toward them both. The pending questions must be settled somehow or other, or we must obtain a clear conviction that they will not be. Can we leave this matter entirely in the hands of the Foreign Office? If experience is to be our test, we cannot. After many years and the shelving of three Foreign Secretaries, we are at last in the most embarrassing, in almost the most ridiculous position. Our policy, in fact, has jerked itself backward and forward from pride to humility in every conceivable fashion, while the treaty recently concluded and adjusted, though framed with the most kindly feelings to America, is *the most clumsy piece of diplomatic workmanship that ever yet came out of Downing street.* We do not blame Lord Clarendon. This treaty was cut out for him by Mr. Seward and his predecessors, and we must add, by that Under-Secretary who has actually assisted at all these negotiations and imbibed the idea of making a treaty in London, which one of the treaty-making powers was not invited, instead of making it at Washington, where, owing to his influence, we had a representative whom he thought good enough to appoint, but not good enough to employ and to trust. It now remains questionable whether *full discussion in the House of Commons is not necessary to give confidence*, both in this country and the United States, that a conflict at once just and conciliatory, but dignified and firm, will be adopted hereafter and pursued steadily.

In General.

Fifteen Republicans and fifteen Democrats are elected to the Lower House of the Washington Territory Legislature. The seats of two Democrats will be contested. The Council stands five Republicans to four Democrats.

The New York *Journal of Commerce*, a Democratic paper of half a century's standing, says we ought to bring the Chinese over to this country for the purpose of converting them from idolatry. Too little progress is made by sending missionaries among them.

The New York *Times* closes an article on the Democratic party with these words: "It is not a party in which new ideas make way quickly. It is a party of dogmas and prejudices and stupid superstitions—one that worships wooden idols, and summarily punishes all departures from its antiquated faith. We are not sanguine enough, therefore, to look for immediate results from the liberalizing elements that are at work in it."

The *American Journal of Mining* has an article on the manufacture of iron on the Pacific coast and particularly in Oregon. It says that in twenty years the gold and silver producing West will lay 20,000 miles of new rails: and if their iron ore could be worked up as cheaply as is done at Carondalet, or Pittsburg, that the saving in the construction of railways alone would amount to one hundred million dollars in gold.

The San Francisco *Bulletin* publishes an article to show that many persons in that city evade the income tax. It says: "One thing is certain, either officers making the assessments neglect their duties, or numbers of persons spend more money than they make, or they defraud the Government. We are inclined to believe, from having critically examined the tax list for several years past, that a portion of our citizens honestly pay their taxes while others do not." The same thing is witnessed almost everywhere.

We notice that Rev. H. H. Spaulding obtrudes upon the public another account of his supposed grievances, through the Salem *Press*. The loss of the Nez Perces mission has rendered him incurably morose and we fear has dried up all the charity in his heart. He still rails at President Lincoln, and though professing to eschew politics does little else but censure and condemn the Republican party. The story of his supposed wrongs has been told about as often as the story of Beriah Brown's treatment by a San Francisco mob. These two men are sympathizing spirits, and it is probably well enough that they should tell each other's story.

A Democratic paper of California tells us that the question of white supremacy on the Pacific coast hangs upon a very slender thread." That paper must have a poor opinion of the Democratic portion of the population on the Pacific coast, to fear Chinese equality. If white men cannot compete with Chinamen, they certainly are to be pitied.

The *Herald* and Salem *Press* are at it again, hammer and tongs. To the *Press*'s two column distribe the *Herald* publishes a two column rejoinder. Each impeaches the Democracy of the other, and each depreciates the ability of the other as an exponent of Democratic principles. The contest seems to be a fight for the championship of the party.

The towns on the Sound are rapidly aping San Francisco. Determined not to be behind the metropolis in anything, they are getting up earthquakes and telegraphing accounts of them all over the country. San Francisco must look out for her laurels. The terminal towns on the Sound are determined rivals in every particular. There are earthquakes north of us and earthquakes south of us, but Portland meanwhile stands serenely and securely on firm ground.

"White Man's Logic"

An "Anti-Coolie Address" has been issued at Virginia City, Nevada, which is one of the most remarkable documents ever produced by the combined talent of an association composed of persons belonging exclusively to the "superior race." After a studied though just panegyric upon the superior capabilities of white men, the authors of the address continue in this strain: "But can these men, can we, compete with a barbarous race, devoid of energy and careless of the State's weal? Sunk in their own debasement, how long would it be ere they would swamp the capitalist and the poor man together?" This logic is quite overpowering. It will strike every person of ordinary observation that those white men who cannot compete with a "barbarous race, devoid of energy and sunk in their own debasement," must be somewhat "devoid of energy" themselves. The average white man, we are sure, would be ashamed to associate with such persons and would deny that they are the representatives of his race. George Francis Train don't want the vote of any such man to help make him President. If this address is the best specimen of "white man's logic" which the Anti-Coolie Association of Nevada can produce, the chances are that the Chinese will yet go ahead of them.

GENERAL NEWS ITEMS.

Colonel Berdan has gone to St. Petersburg, where his rifle has been adopted to arm a part of the army.

Commodore Winslow, of *Alabama* fame has been placed in command of the Navy Yard at Portsmouth, N. H.

Prince Louis de Bourbon, the disowned descendant of a line of throneless kings, has declared his allegiance to the United States.

More homesteads have been pre-empted in Nebraska this spring than the entire previous number since the settlement of the State.

There is to be a great German singing festival in Baltimore from the 10th to the 16th of July. Handel's oratorio of *The Messiah* is to be given with a chorus of 1,000 voices.

Dr. F. C. Durant has not only resigned his Vice Presidency of the Union Pacific Railroad, but has withdrawn from the company, and has no longer any pecuniary interest in the enterprise.

Mr. E. C. Hall, the author, is one of the few persons living who remembers seeing Garrick act. In a recent lecture, in London, Mr. Hall alluded to the circumstance, and also said that he had talked with Boswell.

In Hopkinton, Mass., a newly elected constable while drunk went to the house of a citizen, at night, and having awakened him, commanded him "in the name of the Commonwealth to come out and carry him home."

A man in Michigan lately laid down on a railroad track before an approaching train, which, of course, ran over him. Being asked why he did this, he said it was because he wanted to die. The explanation being considered satisfactory, he was allowed to die.

It is stated that Mr. Reverdy Johnson is preparing an elaborate vindication of his ministerial course for publication, in which he designs showing that he strictly obeyed his instructions, and that Senator Sumner knew of and approved them before he left for England.

Work is going on rapidly in preparing the material for the great bridge across the Mississippi at St. Louis. Owing to the high state of the water, nothing can at present be done in the construction of the piers and abutments, but work will be resumed about the middle of August.

A ten-inch columbiad gun has been placed on the spot where Generals Grant and Pemberton arranged the terms for the surrender of Vicksburg, an inscription denoting the fact being engraved upon it. The marble monument which was originally erected there had been hacked and marred by vandal relic-seekers.

General Clusseret has at last got himself into notoriety in France by being expelled from the country. We had the General over here for a number of years. He was one of the adventurers who, after our war broke out, undertook to show how to carry on war upon the high strategic principles of the great European Generals.

Mr. Coffin (Carleton) in his new book, puts down the average annual importation of tea from China to the United States, at 30,000,000 lbs. Another authority makes the amount 40,000,000 lbs. In 1867 the value of tea imported was $7,510,066. In the previous year, while Great Britain imported double the amount of tea, the balance of trade was against the Chinese by more than $35,000,000. We shall soon come to the time when China will buy more goods of us than she sells to us.

The largest elephant in the world which has come under the control of man recently arrived at Hoboken on the steamer *Holsatia*, from Hamburg. She is called the Empress, and was formerly the property of the Emperor of Russia. She is twenty years old, and is twelve and a half feet high. A great crowd of people witnessed her landing on the dock, which is very particularly described. Her weight caused the ship to careen as she passed to the side, but she came safely to land and testified her delight in the manner peculiar to elephants. She is to be placed in the Central Park for a short time, and will be seen there, after which she will join a menagerie.

The French Imperial Commission have just issued the final volume, which is the twenty-eighth, of the "Correspondence" of the First Napoleon. The letters come to an end soon after Waterloo, and the collection closes with the fallen Emperor's protest against the English, for his captivity. There is no doubt of Napoleon's intention to seek refuge in this country after his downfall, although in his protest he speaks of "seeking an asylum to *England*." A few days before writing it, he sent an order to the Imperial librarian, for various works, especially works on the United States, and his library was to be consigned to some house in America.

ADVERTISING.—The *Round Table* forcibly remarks that anybody can afford to advertise who has an article to sell, the supply of which is practically unlimited, and the demand for which will bring forth ten or a hundred fold, according to its own quality and that of the soil in which it is sown. More and larger fortunes have been made by it than by any other process. Money judiciously invested in advertising has never failed to make handsome returns.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 29.—An indignation meeting of colored citizens was held at Powell St. church last night. Considerable discussion over resolutions offered in reference to the 4th of July celebration was the result, and the meeting then adjourned.

R. C. Talbot, a shoemaker, committed suicide by hanging himself, yesterday afternoon, on Folsom street. Cause, impecunious circumstances.

Adolph Muller's fur store, on Montgomery street, was broken into last night, from the rear, and $2,000 worth of furs stolen. No clue to the robbers found.

Charles Nelson and Charles Thompson, ship masters, had a fight on Stewart street, yesterday, during which Nelson, it is alleged, struck Thompson on the head with a sling-shot, inflicting a dangerous wound. Nelson has since been arrested.

The body of J. V. Brown, drowned a week since, was found floating near Fort Point, yesterday.

At three o'clock this morning Charles Wilson, formerly special policeman, was attacked on Pacific street, by an unknown man, who stabbed him dangerously, twice in the back and once in the head and shoulders. His cries brought assistance, and the would-be assassin made good his escape.

Charles Hanson was arrested last night on a charge of perjury, in swearing before the Election Supervisor, Talbot, that his name was on the Great Register and poll list.

A black man was found dead in his bed this morning, on Third street. An inquest will be held to-day.

The U. S. steamer *Mohican*, Commander Franklin, sailed to-day for a cruise on the Mexican coast.

The Taylor Mill & Mining Co. incorporated to-day; location, El Dorado county; capital, $600,000.

The steamer *Constitution* will sail for Panama to-morrow morning.

WOODLAND, June 29.—The citizens of Woodland are jubilant over the arrival of the railroad. The cars are here and the last spike is driven, and Woodland is in connection by rail with New York. One hundred guns are now being fired in commemoration of the event. Twenty baskets of champagne are now flowing. Dryfus furnished fifteen, and A. S. House, of the Planter's House, the rest. Everybody jubilant.

NEVADA.

VIRGINIA CITY, June 28.—Warm weather has driven many of our citizens of leisure to the mountain lakes for cool air and recuperation. Those at home are entertained by Anne Dickenson, Kennedy, the Scottish vocalist and Wilson's circus.

Our firemen and others are actively drilling for the 4th of July celebration. Travel to and from the city continues as active as ever. Five coaches go and come daily, connecting with the C. P. Railroad.

A miners' convention will be held in this city July 5th, at which it is expected strong and individual grounds will be taken against the importation and employment of Chinese in our mines.

FROM THE NORTH.

VICTORIA, June 29.—Yesterday Coronation Day was celebrated by a picnic to the English camp at San Juan Island.

A light shock of earthquake was felt in this city about eight o'clock Saturday evening.

SEATTLE, June 29.—The steamer *Geo. S. Wright*, from Portland via Victoria, arrived this evening.

THE WEST.

Small pox has appeared on the Upper Missouri, and at Fort Benton.

It is said that arrangements are being made to publish a newspaper at Steilacoom.

The assessment of Thurston county (W. T.), this year, is $911,129—an increase over last year of $128,267.

There are 18,000 square miles in San Bernardino county, California. The largest valley is that of Santa Anna, 50 by 20 miles, and without trees.

A Yreka paper says: The California and Oregon Boundary Surveying party, have commenced their survey towards the coast from Grouse Creek. The surveyors were obliged to suspend operations for the winter, but now expect to be able to go speedily through and complete the survey in two or three months.

Brigham Young talks savagely against those Saints who don't pay their debts. He says "I ask bishops to cut every one of them from the Church, without favor or affection. If the bishops do this they will be doing their duty. Disfellowship them, they are not worthy of a standing in the Church and in the Kingdom of God."

An Olympia paper says: We understand the price of lumber has fallen so much lately in California as to effect some of our Sound lumbermen. Real estate in San Francisco has depreciated in value, business dull in that city and the demand for lumber light. In consequence of this, some of the mills are only running one set of hands, stopping at night.

A Hamilton (White River) paper says. "We learn from the City Assessor, that he has just completed the assessing of the property in this city, and that it amounts to $1,250,000. We are not disposed to crow or say anything we cannot back up, but we are satisfied there is not another town of eight months old in the world which can show the same amount of prosperity.

Ex-President Johnson and the Late Preston King.

From the Ogdensburg Journal, June 7.

The records of the Republican National nominating Convention of 1864, will show that it was owing to the great influence of Mr King, that Andrew Johnson was made the candidate for the Vice-President, and therefore placed in way of succession in the Presidency. The intemperate exhibition by Mr Johnson, on the 4th of March, 1865 gave Mr King great concern, for he felt his responsibility in elevating him to office. It will be remembered that Mr King took charge of Johnson, went with him to Silver Springs, the home of Mr Blair, and labored with him till he had become thoroughly sobered.

When Mr Johnson became President, Mr King went to reside with him at the White House, and we have reason to know his sole purpose was to watch over and advise with the new President. During the stay of Mr King in the White House, neither the Republican party nor the loyal country had cause to complain of Andrew Johnson. The nomination of Mr King as Collector of New York, did not spring from anybody's jealousies of his influence with the President, but from necessity of an honest administration of the affairs of that office, the most important in the country.

With the departure of Mr King from the White House, that influence so much needed to keep Mr Johnson in harmony with the Republican party was withdrawn, and at once commenced the disruption which proved so dishonorable and disastrous to Mr Johnson, and the troubles which temporarily unseated Mr King's reason and lead him to the fatal plunge on that November afternoon.

For more than a month previous to his mad act, Mr. King labored under the hallucination that the Republican party and the country were doomed to irretrievable destruction from the treachery of Andrew Johnson. He was borne down under the belief that all that had been gained by rivers of blood shed in defence of the country was lost, and he frequently expressed this belief to friends, and added, "I am responsible for the whole." It may please this man to attribute Mr. King's trouble to one thing, and that man to another, but we are persuaded that it arose from the treachery of Andrew Johnson. We enjoyed the confidence of Mr. King, were with him the night before he left home to take up his abode in the White House, and also the evening before he left for New York, only a few days before the fatal 19th of November, and had his confidential assurances to the effect above intimated.

The Legislature of Kentucky, appreciating the distress to which convicts are subjected by the deprivation of tobacco, has appropriated $1,400 to purchase the weed for the inmates of the State Penitentiary.
